## Message from Principal's Desk

***Dr. N. S. Vyawahare***  
***Principal (M. Pharm., Ph. D))***

***“Education is a light that shows the mankind the right direction to surge”***

Welcome to Dr. D. Y. Patil College of Pharmacy (DYPCOP). I heartily congratulate you for opting Pharmacy as trajectory to shape up your professional career and personal lives. Pharmacy as a profession is an integral part of health care system in India and across the globe. It has expanded multifold and set new trends with respect to the Indian education system and career opportunities which lie therein.

Pharmacy as a profession enjoys an egalitarian position amongst the other professional courses of the Higher education system in India. These factors have contributed to an increased demand for Pharmacists, rating India as the third-largest healthcare professional group in the world and the sole profession specifically trained to deliver pharmaceutical services. In view of the above, I would like to state emphatically that DYPCOP, established in the year 1999, is functional in acute liaison with its vision and mission as a center of academic excellence and research, thereby producing professionally competent, ethically sound proactive multifaceted Pharmacists.

The college has a state-of-the-art infrastructure, well equipped ultra-modern and spacious laboratories, highly qualified experienced and dedicated faculty, well stocked library, lavishly furnished hostel and canteen facility. It also has a placement cell that is functional 24x7 which plays a key role towards appropriate and timely placement of eligible students as per his/her caliber in various Government, semi government & private pharmaceutical sectors.

In addition to this, the college organizes training sessions, guest lectures, seminars, conferences, workshops, sports events, cultural activities etc. for the all-round development of each and every student. The conduction of soft skill training sessions by the professionals is an attempt to help students become job ready candidates for the competent pharmaceutical companies. The USP of this college lies in the in-house faculty and student trainings in Communication Skills in English, Japanese, German hosted in the ultra-modern Language Laboratories. The faculty members are supported for knowledge and skill enhancement and updating via QIPs, FDPs, etc.

We are ingeniously committed to grooming GLOBAL Pharmacists to make India a PHARMA SUPERPOWER by 2021

## *Editor's Message*

Dear Readers,

*Coming together is a beginning, staying together is progress, and working together is success*

With enjoyment and pleasure, we put forward the next dynamic piece of creativity, freedom, self-expression of year's work in Annual Report, which is an amalgamation of the yearlong work of talented personas along with, the blend of unique taste from each one who has contributed for this annual report.

This Annual Report issue is a brief account of the important events held up by the students and faculty in academic, co-curricular, extracurricular as well as research activities. . If a person loses his track, he become more vigilant, deepens his thoughts and searches for his track back again to reach his destination. Similarly, writing deepens our thoughts, helps us express our views and reading opens our mind to the extent of making the impossible, possible.

We express deep sense of gratitude to the Principal, Dr. N. S. Vyawahare, Principal, Dr. D. Y. Patil College of Pharmacy, Akurdi for giving us an opportunity, constant encouragement and thorough support in endeavor to make this annual report a sheer triumph.

We are also thankful to my colleagues for their unbound co-operation. We strongly hope that the annual report will be received well by one and all. As you peruse through this magazine, let it transform you to a BETTER YOU- smarter, positive, develop a sense of optimism and mould the society into a better future.

*DEPARTMENT  
OF  
PHARMACEUTICAL  
CHEMISTRY*

## DEPARTMENT OF PHARMACEUTICAL CHEMISTRY

*Pharmaceutical Chemistry: Discover and Develop new drug therapies that can improve quality of life*

Pharmaceutical chemistry is concerned with the design of drugs or compounds that are able to provide an influence on some medical condition. The department is well equipped to introduce these fundamental subjects to the students so that a strong foundation is laid at the very beginning. This foundation serves as the building block for all other subjects in the entire B. Pharm course. The students are well prepared with the application of modern information and scientific technologies in drug development safety and efficacy studies.. There are well equipped laboratories for undergraduate students and research labs for postgraduate students. The department is well equipped with necessary instruments and also engaged in study of different aspect of drugs like physical, chemical, analytical, organic, inorganic, biochemical, medicinal etc.

## Major Research Interest

Drug Design, QSAR Study, Synthesis of Different Drugs, Phytochemistry, Prodrug Delivery System, Analytical and Bioanalytical Method Development and Validation of Different Drugs, Quality by Design etc.

Facilities:	Pharmaceutical Chemistry	Quality Assurance Techniques
No. of Laboratories	04	02
Each Laboratory Area	108 Sq.mtr	108 Sq.mtr
Area of Instrument Laboratory	78 Sq. mtr	78 Sq.mtr
Total equipment investment	53.00 Lacs	51.56 Lacs
List of Major Equipments:		
High Performance Liquid Chromatography, Fourier-transform infrared spectroscopy, Gas Chromatography, Double Beam UV- Visible Spectrophotometer, Digital Photostability Chamber, Parallel Synthesizer, Deep Freezer, Microwaveoven for synthesis, Refractometer, Centrifuge Machine, Ice Making Machine, Digital Electronic Balance, Colorimeter, Rotary Vacuum Evaporator, Digital Flame Photometer, Digital Fluorimeter, Digital Polarimeter, Digital Potentiometer, pH Meter with Magnetic Stirrer, Spectrocolorimeter, Digital Nepheloturbidometer, Melting Point Apparatus, Ultrasonicator, Double Distillation Apparatus, Dissolution Apparatus, Disintegration Apparatus, Antibiotic Zone Reader, Capsule Filling Machine etc.		

## Faculty

Faculty Name Dr. (Mrs.) Sonali P. Mahaparale

## DEPARTMENT OF PHARMACOLOGY

*Pharmacology: Science of drug's action on biological systems and their clinical use*

Pharmacology is the branch of biology concerned with the study of drug action, where a drug can be broadly defined as any man-made, natural, or endogenous (from within the body) molecule which exerts a biochemical or physiological effect on the cell, tissue, organ, or organism. The Department of Pharmacology provides a vibrant and dynamic environment for conducting high quality research and teaching. The knowledge derive from pharmacology can be used in "Pharmacy" for effective implementation of pharmacotherapy for diverse disease conditions, patient counseling in-vivo, in-vitro, preclinical screening and clinical trials etc. The department has well established animal house giving all the necessary care & facilities for hygienic housing of laboratory animals like Wistar rats and Albino mice required for study. The department has more than 100 research publications in national and International Journals.

The scope of pharmacological training opens a wide range of employment opportunities to the pharmacy students in hospital pharmacy, academia, industry and government organization etc.

#### Major Research Interest

The Pharmacology Laboratory has facility for advanced research in the field of preclinical and clinical Pharmacology. The major research areas include Phytochemical, Immunopharmacological, Toxicological, Neuropsychological and behavioral studies.

#### Facilities:

No. of Laboratories	03
Each Laboratory Area	108 Sq. mtr
Area of Instrument Laboratory	78 Sq. mtr
Total equipment investment	Rs. 15 lakhs

#### List of Major Equipments:

The laboratory is well equipped with latest instruments like Sophisticated Digital Video Tracking System, Digital Plethysmometer, Digital Actophotometer, Rota-Rod Apparatus, Elevated Plus Maze, Y-Maze, Radial Arm Maze, Electric Convulsometer, Digital Analgesiometer, Histamine Chamber, Tissue Homogenizer With Other Routinely Required Instruments Like Digital Student's Organ Bath And Kymograph etc, to give hands on experience in preclinical studies to the students.

# *DEPARTMENT OF PHARMACOGNOSY*

## DEPARTMENT OF PHARMACOGNOSY

*Pharmacognosy: Devoted to natural and folklore holistic health*

Pharmacognosy as "the study of natural product molecules that are useful for their medicinal, ecological, gustatory, or other functional properties." The Department of Pharmacognosy is dedicated to natural and herbal medicinal product research in pharmaceutical sciences. The use interdisciplinary approaches to identify, analyze, and purify multi-component mixtures from plant, fungal, or marine sources focusing on the characterization of their bioactive secondary metabolites. Natural products research often comes across many hurdles, which dims the drug development goals. We believe that natural products research information can potentially benefit many researchers involved in this area. Further researchers believe in combining the strengths of Ayurveda with modern scientific techniques such as NMR, MS and chromatographic techniques to provide new functional leads with high therapeutic value in a short span of time. This department deals with the study of biology, chemistry, biochemistry, taxonomy, and ethnobiology of natural products obtained from plant, animal, marine and other life origins.

Pharmacognosy has undergone significant change in recent years and today represents a highly interdisciplinary science, which is one of the major pillars of Pharmaceutical education. Areas of active interest include natural products chemistry, isolation, characterization and biological studies of phytoconstituents using animal models, herbal cosmetics, novel herbal formulations, and their standardization.

**Major Research Interest:**

- Drug discovery and lead generation from natural sources
- Development of formulation methods, standardization and stability studies of herbal drugs, herbominerals, nutraceuticals and cosmeceuticals of natural origin
- General quality control methods for crude drugs and protocol development for specific medicinal plant materials
- Development of technologies for natural products involving extraction, isolation and quantification
- Ayurvedic formulation development and standardization with novel approaches
- Biological evaluation and validation of medicinal plants in various therapeutic areas like antiacne, antidiabetic, immunomodulatory, antioxidants, antiulcer, and anti-inflammatory.

**Facilities:**

**COURSES OFFERED 2020-21****DIPLOMA COURSE IN PHARMACY (D. PHARM.)**

D. Pharm is an entry-level tertiary pharmacy credential. It is a 2-year full-time diploma course designed to prepare candidates to work under the supervision of a licensed pharmacist in hospitals, community pharmacies, and other pharmaceutical-related fields. The basic eligibility criterion for pursuing the course is a 10+2 or equivalent qualification in any stream from a recognized educational board.

Students can enroll in the course after successfully completing higher secondary education in science stream with physics, chemistry and either biology or maths as subjects. After obtaining the diploma, registration with the pharmacy council is required to be a registered pharmacist. A D. Pharm holder can also enroll for a professional (undergraduate) degree course of Bachelor of Pharmacy via lateral entry scheme.

**DOCTOR OF PHARMACY (PHARM.D):**

The College offers Doctor of Pharmacy (Pharm. D.) course; a 06 years full time doctorate level course comprising of 5 years classroom teaching and 1 year of internship in collaboration with Lokmanya Hospital, Pune, a venture of Lokmanya group of hospitals, a multispecialty hospital with team of experienced and dedicated doctors serving people for more than 40 years.

In the Pharm. D. course the major components of pharmacy are emphasized such as Pharmacy Practice, Hospital Pharmacy, Community Pharmacy, Pharmacotherapeutics, Clinical Pharmacy, Biostatistics and Research Methodology, Clinical Toxicology, Clinical Research, Pharmacoepidemiology, Pharmacoeconomics, Clinical Pharmacokinetics, Pharmacotherapeutic Drug Monitoring etc.

Students shall posted in hospital for a period of not less than fifty hours in each of second, third & fourth year course. In the fifth year, every student shall spend half a day attending ward rounds on daily basis. Students will get exposure during internship to conduct actual practice of pharmacy and health care and acquires skills under the supervision of doctors so that he or she may become capable of functioning independently Utilizing ultra-modern facilities of online and offline learning facilities in the College, after completion the course students will be able to provide the clinical pharmacy services such as patient medication counseling in the hospital, work in the areas Clinical research organizations (CRO), Pharmacovigilance, Pharmaco-economics, community services, in research and academics.

**M. PHARM (PHARMACEUTICAL CHEMISTRY)**

M. Pharm in Pharmaceutical Chemistry deals with the design of lead molecule as per the need of society for the particular disease. Medicinal chemists play a crucial role in the drug discovery process through the selection and synthesis of compounds that establish structure–activity relationships and achieve efficacy and safety in preclinical animal testing. The students will study various field of organic chemistry along with a range of other disciplines to anticipate problems and interpret growth for design of lead compounds by use of various software applicable for docking, homology modeling, QSAR studies as well as isolation, purification of medicinal compounds from natural origin and characterised all compounds by using various modern sophisticated instruments with latest technology.

Area of Interest: Docking study, Homology Modeling, QSAR study, Green synthesis techniques, analytical method development and validation, Preclinical study of synthesized compounds

**M. PHARM (PHARMACOLOGY)**

Pharmacology is an important branch which helps in determining the safety and effectiveness of the medicines. The various practice of pharmacology is important to determine safe first dose to be administered to humans. It deals with the uses, effects and modes of action of various drugs. Various experiments determine the effect of different chemicals on biological systems which incorporate knowledge and skills from a number of basic science disciplines including physiology, biochemistry, and cellular and molecular biology. Pharmacological knowledge improves the lives of millions of people. It maximizes their benefit and minimizes risk and harm that may occur in human beings. Pharmacology is essential for discovering new medicines to help fight diseases, improving the effectiveness of medicines, reducing unwanted side effects of medicines, understanding why individuals differ in the way they respond to certain drugs, and why some others cause addiction

## COLLEGE AMENITIES

### i. Computer Center

The internet is transforming society and shaping the future through chat. Using technology in pharmacy is very useful for the pharmaceutical profession; It is useful for the patient profile monitoring, the drug interactions, the medication, the database management, the material management, the drug information services.

At Dr. D. Y. Patil College of Pharmacy we have air-conditioned labs enabled with internet and licensed software applications connected in network. Wi-Fi facility is provided as another mandatory thing so students are not restricted to labs or spend money in café for projects and programming. Computer Laboratory with 24×7 Net connection

Maintained By:-

Computer Lab Assistant: Mrs. Milan Naik  
MBA

### ii. Library

In Pharmacy education, library use do appear independent contributions to desirable outcomes of the institution. Pharmacist today face challenges to ensure access and rational use of efficacious, quality, and safe medicines and health technologies; Strengthening and harmonization of pharmacy education is essential for the development of basic medical and pharmaceutical sciences to serve the society. Libraries are pivotal in supporting and achieving the mission of higher education in today's information world and to make students information literate.

Our library wardrobe consist enormous quantum of books split between authors, topics, subjects, magazines and newspapers. An entire silent zone with mechanized search system is serviced by librarian who is skilled enough to handle all concerns of students.

- Qualified Library staff as per AICTE & PCI Norms.

- Spacious and rich library services are provided to the students with access to e-journals and text books.
- Total Library area-465 Sq.mtr, Reading Room area:-260 Sq.mtr, Stack Room area:-108 Sq.mtr
- Separate Reading Room for Faculty and students having seating capacity of 150,
- Separate Reference Section and In- house Digital Library
- Library has a rich collection of e-books, animations & presentations on numerous topics which can be accessed easily by the students.
- The library is kept open for the students from morning till late in the evening.
- Library is equipped with Library Management software (OPAC). This software helps to keep complete track of Books, Periodicals, and Journals etc & is divided into different modules so that you can choose as per your requirement.
- The library is updated every year and newer journals, books and abstracts are added to it. This helps the faculty members and students to keep themselves abreast of recent developments in the pharmaceutical sciences.

**iii. Language Laboratory**

Good Communication Skills are indispensable for the success of any professional. The Language laboratory plays an important role in the language learning process. As it is a technological aid for learning, it has a number of advanced facilities that can help a student to learn a language with proficiency to communicate.

Strange to hear but a unique concept at Dr. D. Y. Patil College of Pharmacy is the application of Language Laboratory. The institute under the guidance of communication skills experts train students to enhance their writing and verbal capabilities. The students are developed and assist as per corporate requirements.

**Objective of the Training:**

- The training is organized so as to improve communication and soft skills of students.
- To learn pronunciation, accent, stress and all other aspects of the phonetics of a language.
- To develop Soft Skills such as group discussion, interview skills, debate, presentation skills ,reinforce material learned ,optimize computing resources etc
- To develop and boost the self-confidence, Self-learning of the student by making they speak in front of the class.
- To make students aware about the skills needed for overall language development

**Details of the Modules covered in the training:**

The modules are based on the effective communication style such as speaking, writing, reading and listening skills.

1. Introduction
2. Listening- I
3. Situational Conversation- informal
4. Grammar- Tenses
5. Newspaper- Reading Comprehension
6. Resume, Letter writing
7. Listening- II
8. Intonation & Stress

**iv. Medicinal Plant Garden**

Plants have been used for medicinal purposes long before prehistoric period. Evidence exist that Unani Hakims, Indian Vaid and European and Mediterranean cultures were using herbs for over 4000 years as medicine. Indigenous cultures such as Rome, Egypt, Iran, Africa and America used herbs in their healing rituals, while other developed traditional medical systems such as Unani,

Ayurveda and Chinese Medicine in which herbal therapies were used systematically.

The college has well maintained “Charak Medicinal Plant Garden” with approximately 110 endangered and bio-diversified medicinal and folklore plants. The Students visit and maintain the garden as per the curriculum and enhance their knowledge.

**v. Animal House**

The college has well established animal house approved by CPCSEA, giving all the necessary care & facilities for hygienic housing of laboratory animals like Wistar rats and mice required for preclinical studies.

**Animal Data:**

Year	Species	Sex	Number
2020-21	Wistar Rat	Male	29
		Female	13
	Swiss Albino Mice	Male	73

**vi. Amphitheater**

The amphitheater is exactly in the middle of campus and is a center of attraction for everyone giving awesome ambience to the students of Dr. D. Y. Patil College of Pharmacy in organizing Industry-Institute Interactions, Fares and Cultural fests.

**vii. Dnyanprasad Sabhagruha**

A kind of conference hall has a seating capacity of 200 with Projectors, Internet access unit, Television set, VHS, CD/VCD units is utilized for events, presentations, meetings, conferences and lectures.

**viii. Shantai Auditorium**

A mandatory facility as a part of modern technology based education. A fully equipped with seating capacity of 550 and seminar hall architected with advance mounted projector and screen. The student themselves can utilize additional facility of audio, video and recording system with prior permission.

**ix. Transport**

Separate transport facilities are inherently equal. With resident hostel students Dr. D. Y. Patil College of Pharmacy also has non-resident Pune locals. An equally important transport facility is completely managed by our institution not involving any 3rd party or vendor at this role. Pick and drop is arranged as per timings of college curriculum with one security always in bus traveling with the students. In order to cover the entire city sufficient numbers of buses are stocked in the campus.

**x. Canteen**

Not only the body but the soul should also be fulfilled by the quality of food. Every ward desire & has a right for food which is hygiene and healthy. We believe when a student's stomach is happy; half way is achieved in their progress.

**xi. Sports Ground**

The campus has facilities of cricket, volleyball and football ground.

**xii. First Aid Room**

The First Aid Room at our college accommodates and takes care of the patient from the college. Health checkups are done under specialized doctor's supervision by the First Aid Room at regular intervals.

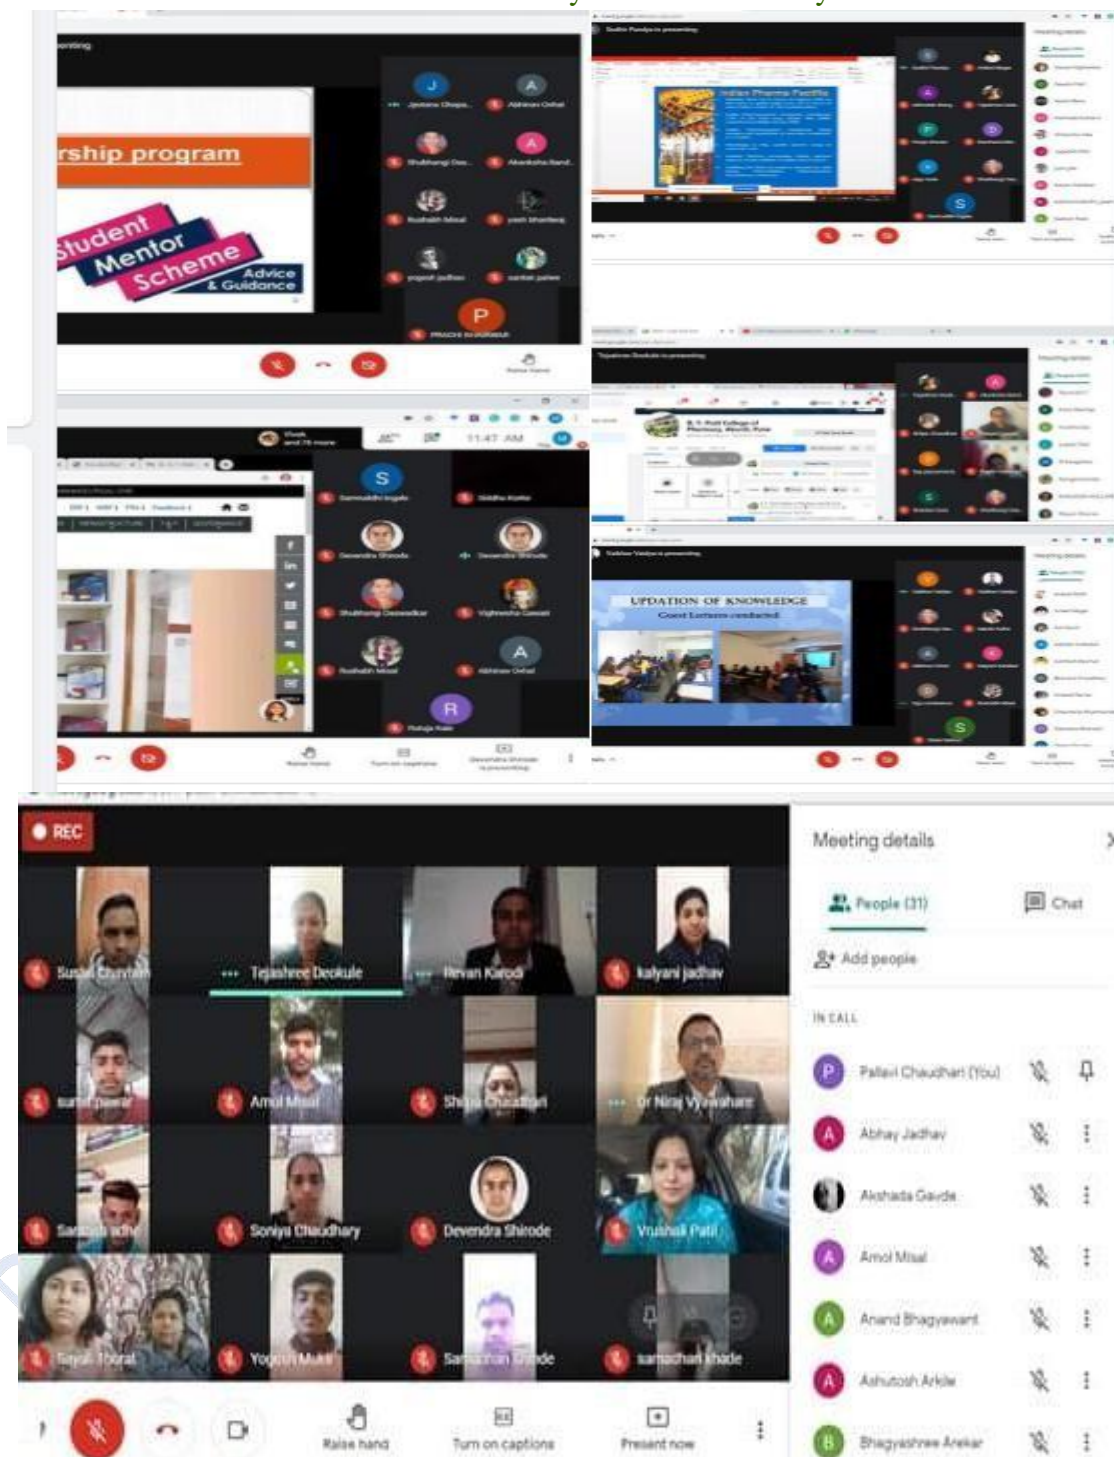

**Facilities and equipment's in first aid**

**room:** Digital Blood pressure apparatus, stethoscope, weighing balance and first aid box, Digital Body Weighing balance, Glucometer, Wheel Chair etc.

**Visiting Doctors:** Dr. A. Mahajan and Dr. (Mrs.) S.P. Debis

## CO-CURRICULAR

### 1. INDUCTION PROGRAMME: 1<sup>st</sup> February 2021- 5<sup>th</sup> February 2021

*Fresher"s of First year were warmly welcomed and introduced to the college campus, faculty members and the course of Pharmacy as a profession.*

Maintained by: Ms. S. C. Daswadkar

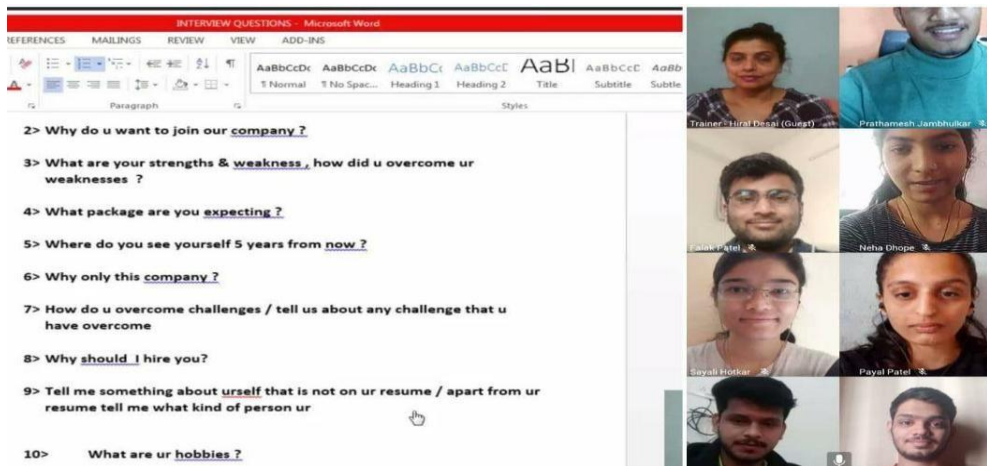

## 2. BARCLAYS TRAINING:

Likability is a soft skill that leads to hard results

Barclays "Connect with work" Job Readiness Program was organized by Barclays in association with GTT

Duration: 23rd January 2021-30th January 2021

Trainers: Ms. Padmini Bhasin and Ms. Hiral Desai

*Active Participation of students in Soft Skill Grooming Session*

## ALUMNI

**Reg. No.:** MAHA 2146/2012/Pune Dated: 02/11/2012

**Name of News Letter:** Pharmazine

**No of alumni registered till date =792**

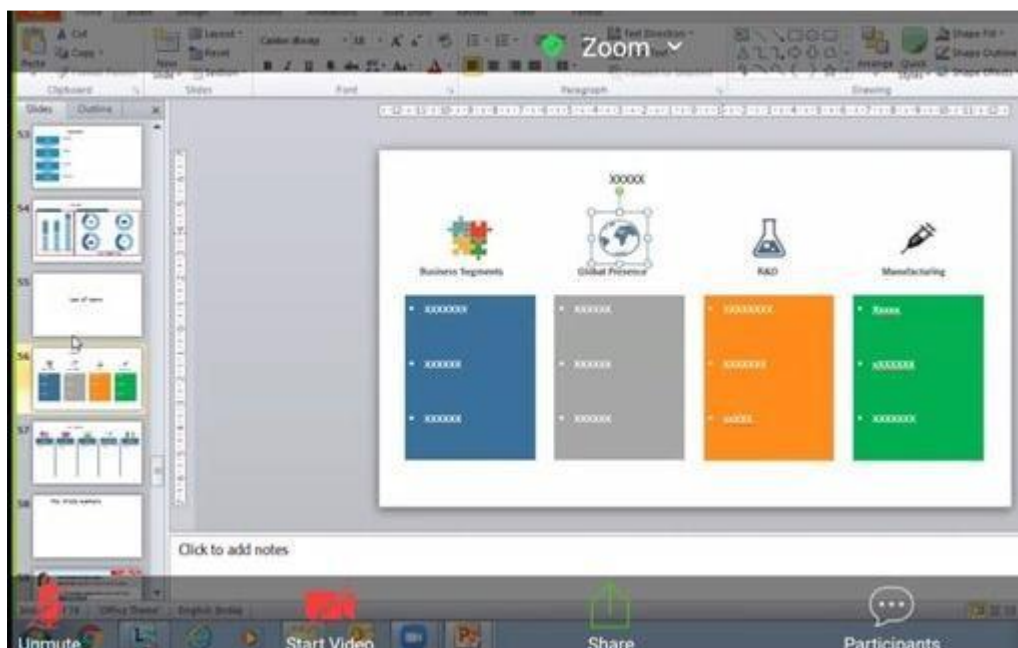

Alumni are metaphorically the birds that fly higher and higher from their nests to embark their tiny footprints into the gigantic places. They are the real assets of any alma mater, though the alumni spread their wings for flight, they have their feet grounded. There are immense benefits of bridging the gap between the current students and the alumni. There is symbiosis of knowledge, memories and exemplary euphoria. Students get to learn through the experiences of alumni and juxtaposed the alumni get to walk down the lanes of nostalgia. Thus, to nurture this bond of bliss, wisdom and ensure a sound functioning, we run a triumphant alumni-student network.

**Activities of Alumni Association:**

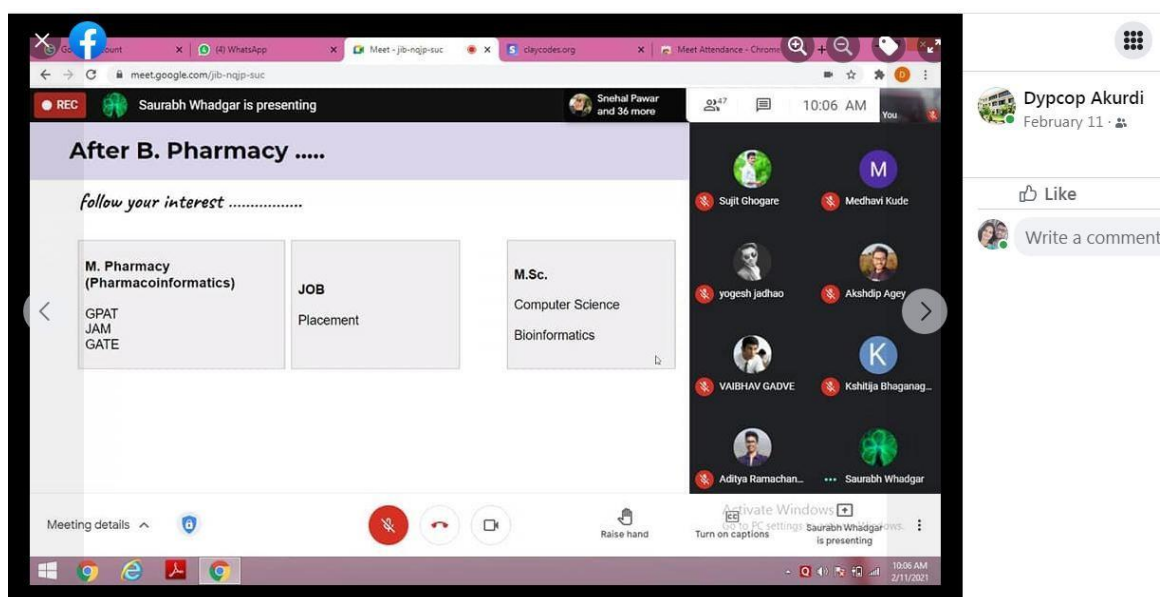

1. Alumni counsel current students on the topic/ areas of their expertise.
2. Alumni and faculty interactive session are organized during their visits to the institute.
3. Alumni conduct training sessions/ workshops prior to the conduct of Campus Drive.
4. Online communication is established between alumni, current students and staff for discussion on current academic sectors.
5. Alumni played crucial role in arranging campus interview and industry visit for current students.
6. Arrange guest lecture of eminent personality from industry and academics to get insight of current situation in Pharma profession.

## TRAINING AND PLACEMENT

The Training and Placement Cell is an integral part of any institute in today's competitive world. The globalization in Pharmaceutical industry in turn demands for highly competent professionals. The Training and Placement Cell is headed by capable Training and Placement Officer supported with team.

Dr. D. Y. Patil College of Pharmacy has strong Training and Placement Cell headed by Ms. Shubangi Jadhav and supported by Ms. Pooja Pawar, who are relentlessly working towards imparting training, providing advanced knowledge and skill sets to make the students employable.

The primary objective of the Training and Placement Cell is to provide technical training to give hands on experience of the actual work environment which helps the candidates to identify and inculcate the necessary Soft Skills. The Training and Placement Cell conducts training sessions throughout the year, organizes seminars and workshops on various current topics, provide exposure to latest personality development modules, industrial visits, orientation programmes, personal counseling by the professionals, Industry-Institute interactions, etc. which has resulted into dramatic placements in the reputed pharmaceutical units across the country. The Training and Placement Cell has set high goals for itself i.e. **if you can dream it, you can do it.**

### OBJECTIVES OF TPO CELL

- To prepare and train aspiring learners to face campus recruitment by providing them exhaustive training with relevance to communication skills and overall development for personal & professional grooming.
- To arrange guest lectures of industrial and academic experts to update and upgrade learners with hands on experience in the wake of ever changing dimensions of professionalism.
- To arrange guest lectures and training sessions of alumni who are placed in reputed industries to inspire and motivate the aspiring learners.
- To make concerted and consistent efforts to enhance employability through Campus Placements.
